

Client initiating/requesting TeleCounseling Sessions with their assigned therapist

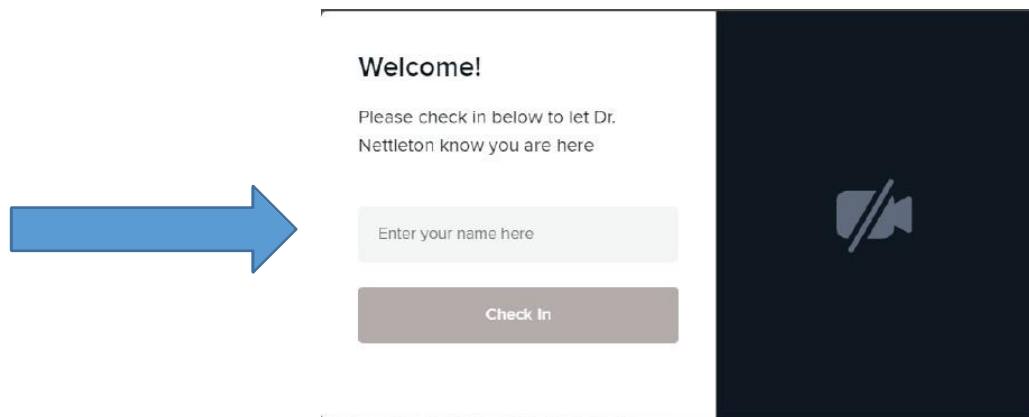

“WTCG can now provide additional services allowing you to participate in sessions via TeleCounseling with your therapist. Telecounseling will allow you to participate from the comfort of your own home or another comfortable environment of your choice. Telecounseling can be set up by using a cell phone, computer or tablet; you just need to ensure the device is reliable and has camera and speaker accessibility.”

The steps are as follows:

1. Type "WTCG.Doxy.Me" in a search browser
2. Click on the drop down menu under you clinician's room name
3. Search for name provided to you for your assigned therapist in the drop down menu and click enter room.

4. Enter your own Name to allow your therapist to see you in waiting room, then click check in

5. If prompted, allow camera and audio access to be able to communicate with your therapist.
6. Please wait, allow your therapist time to transition from one appointment to the other, this may take a few mins. If your therapist hasn't come on virtually to join the session within 15 minutes of your scheduled appointment, please contact WTCG office at 325-944-2561.

*****These instructions will be used for follow up sessions as well*****
